

Capital Markets Task Force

- Expanding the relevance of the Romanian capital market by increasing the investors base (including insurers, pension funds that could invest more in Romania), improving liquidity, facilitating the taxation procedures of investors on the capital market and facilitating the access of retail investors
- Focus on increasing the level of financial intermediation, both for retail and corporates
- Improving the corporate governance for State owned companies, as per the provisions of OUG 109/2011
- Focus on the de-bureaucratization process (digital signature, digital ID access for various processes)
